

HIGHLY CONFIDENTIAL

To: Chief Supervisors, Supervisors-in-charge and Special supervisors
From: Jenny Morup, Manager Examination Logistics
Subject: **Errata – Chemistry Stage 2**
Date: 9 November 2010

This note replaces the one relating to Chemistry Stage 2 as circulated on the 2010 WACE examination: Errata dated 18 October 2010.

WEDNESDAY 10 NOVEMBER 2010

The following is a modification to the 2010 Chemistry Stage 2 WACE examination paper.

The following should be written on the board, and before reading time begins read out for all candidates to hear.

Please ensure that all candidates receive this message.

CHEMISTRY – STAGE 2

Page 3: On the fourth line of Question 2, cross out the word 'happed' and replace it with 'happened'.

The sentence now reads:

'Which one of the following best describes what happened to the balloon as it went deeper?'

Page 18: Question 35(b)

In the third sentence delete the word 'ionic'.

The sentence now reads:

'Write an equation for the reaction between phosphoric acid and calcium oxide.'
